Garmin G500/G600 Multifunction- & Primary Flight Display

Garmin G500/G600

Compact and affordable glass cockpit solution

Designed specifically for FAR Part 23 Class 1/Class 2 aircraft (singles and twins less than 6,000 lbs.), G500/G600 is an affordable, dual-screen electronic flight display that works with your existing avionics stack to provide a fully certified “glass cockpit” retrofit option.

- ▶ Deriving revolutionary technology from Garmin G1000
- ▶ Enhancing situational awareness
- ▶ Making flying safer and easier
- ▶ Improving the overall flying experience

A wide range of features

- Dual-screen electronic flight display (PFD & MFD)
- Real-time True Airspeed Calculations
- Displaying Aircraft Ground Speed
- GPS active waypoint & distance-to-waypoint
- Displaying speed, attitude, vertical rate, altitude and flight process
- SVT Synthetic Vision: 3D “Virtual Reality” perspective view of flight and enroute terrain features
- Detailed Moving Map graphics
- Garmin GSR 56 Weather Integration

Please feel free to contact us for more information about the Garmin G500/G600 flight deck or to discuss your specific requirements.

Scandinavian Avionics provides complete turn-key avionics solutions, including avionics logistics and parts support, maintenance (MRO), certification, design & engineering, installation, product development, training and consultancy services with the primary business platforms being larger helicopters, corporate aircraft, regional airliners and defense electronics.

Scandinavian Avionics is the headquarters of The SA Group – an experienced avionics organization with divisions in Sweden, Norway, Greece, Malaysia, Bahrain and India. Since the foundation in Billund, Denmark in 1978, core values like quality, reliability and flexibility have been deeply rooted in the organization and are the main reasons for the excellent reputation among aircraft operators around the world today.
